

Wurdeman's in Haiti

Happy New Year! We hope and pray for your new year that you are filled with a growth of trust and dependence on God. We know we sure are after another year of seeing God stretch us spiritually and adding Beckett to our family prematurely.

Christmas here at Sonlight is such an amazing worship experience. We thought we would give you a glimpse. On the last few days before break, the halls are filled with practicing for the program. This program is put on outside of the school so all of the town can come to watch....and hundreds do. Each class performs a song and the Christmas story is shared. Then, the next day is our class parties. The children receive gifts from sponsors and churches (thank you for sending things!). We celebrate Jesus' birthday with cake and then play games. Then break begins, though the children were very ready for school to start back again ☺

Prayers & Praises

-Got to briefly travel back to the States for Christmas and be a part of Tierra's wedding (Brice's sister). Thanks Fay grandparents for the providing with our flights!

-School started back up...always such a joy to get to teach the grateful children of Haiti!

-Dayspring sent Bibles for each of our students to receive...they were so excited..... "For my very own?" they asked.

-Team relations here as we serve together, ever year there is a different staff as people come and go. Pray we are all united in our purpose together.

Our students at the Christmas program....they wear the fanciest clothes they have for this.
