

*Some wonder about life for our kids- we feel so blessed as there are 6 other missionary kids here, but so many Haitian children here are close friends too!*

## We Are SO Thankful for YOU!

Recently the 3<sup>rd</sup> grade had a class party in our home. In the middle of our living room, is a big, yet thin rug. Through this rug you can feel the concrete floor underneath. As the kids were playing, several of them spread out on the rug and sighed. Then, one of the inquisitive ones spoke up, "Does your family sleep at night on this carpet?"

We said, "No, we sleep in our beds at night."

Then that same small child said, "Can I sleep here then? This is so nice!"

Sometimes even though we teach these children every day, we can still forget having a bed is a luxury for them and that if they do have a bed, they most certainly share it with other siblings. So, a carpet or rug would seem like a wonderful bed to them.

We know we could not be here working without your help, prayers, support, and encouragement, thank you! We can count our blessings and see so many, but a few are...comfy beds, healthy families, jobs we love, being God's children, and you as our supporters and friends!

### Prayers:

- Our principal and friend Carmen and newly adopted daughter are headed back to Haiti after 10 mos. away.
- Continued prayers for Dayana. She is a freshman and in my Bible Study. Her sister Bendjina died this past August, and her family is still hurting so much.
- Norma Alexander, one of the founding family of this mission, recently had her knee replaced. Praise it went well!
- Praise we've been able to visit lots of students homes and help them minister to their families.
- Praise Brice got to go to the prison here and see how some fellow missionaries and students have been ministering there and baptized 30 people!

*Above you can see Brice with the 32 students in his Bible College class in the evenings.*
